Canada Border Crossing Services has been assisting individuals with obtaining temporary immigration since 1996. Temporary immigration allows for an excellent way to access all Canada has to offer and, if desired, can lead to applications for permanent residency and citizenship in the future. We provide reliable, personalized advise and assistance, and at Canada Border Crossing Services we set the standard for fast, professional service. On site fingerprinting services allow for the convenience you deserve.

Visiting: Those looking to visit Canada on a temporary basis may be required to apply for a temporary visa or electronic travel authorization. As well, certain individuals are inadmissible into Canada and may be required to apply for a Temporary Resident Permit in order to overcome inadmissibility. Our Regulated Canadian Immigration Consultant (RCIC) will assist in properly preparing and submitting the correct applications to temporarily visit Canada.

Studying: Canada offers one of the best educational opportunities in the world and is considered by many international students as an excellent place to begin or continue their studies. There are a number of factors to consider when applying for a Study Permit including past applications, which Visa Office is processing the application, the potential for accompanying family members, and what the student plans to do once they have completed their studies. In fact in some instances, a Study Permit might not be required to complete a particular program. Our Regulated Canadian Immigration Consultant (RCIC) will assist in preparing a plan that matches your future goals.

Working: Those that have acquired skills, training, and work experience in other parts of the world can apply for a work permit to help fill the needs of the Canadian labour market where there is a shortage of workers found domestically. There are many variables to consider when applying for a work permit and, like the Study Permit, there are instances where an individual can work in Canada without being required to apply for a Work Permit. Our Regulated Canadian Immigration Consultant will assist you in determining what you need to do to secure a Work Permit.

At Canada Border Crossing Services we offer free consultations and very affordable rates. It is our goal to make sure our clients know exactly what to expect for their application from start to finish, by providing you realistic insight into your likelihood of success and processing timelines.
